

Yacine YAKOUBI

## About me

Young 21-years-old student finishing studies for obtaining the diploma of engineer in computer science, with strong knowledge of Data Mining, software development in all its forms (Desktop, Web and Mobile) as well as notions in network and operating system.

Ready to invest the best of itself to carry out all missions entrusted to him.

He will be delighted to join a dynamic team and bring his modest computer skills, as well as his qualities of autonomy and adaptability.

My professional Experiences gave me strong technical knowledge, on the other hand, my dynamic participation in different academic projects and differentes competitions helped me to win a real autonomy and develop my skills

I'm particularly motivated to continue my learning, exploit my skills and flourish in a Big-Data-oriented activity.
